### **DETAILED ACTION**

1. Acknowledgment is made of applicant's preliminary amendment, which was received by the Office on March 10, 2004.

2. Claims 2-27 are canceled. Claim 1 is active.

#### ***Priority***

3. Acknowledgment is made of applicant's claim for priority as a Continuation of U.S. Application Serial No. 09/831,100, filed September 10, 2001, now U.S. Patent No. 6,725,093, which is a 371 of PCT/IL99/00594, filed November 4, 1999.

#### ***Information Disclosure Statement***

4. Acknowledgment is made of applicant's Information Disclosure Statements (PTO-1449), which were received by the Office on March 10, 2004 and November 1, 2004.

#### ***Drawings***

5. The drawings are objected to because of the following minor informalities:

-Sheets 1-8, the headers "WO 00/27476" and "PCT/IL99/00594" at the top of each page should be omitted.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing

Art Unit: 3766

sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Specification***

6. The disclosure is objected to because of the following informalities:

-p.1 of the specification, line 2 should be updated to reflect the fact that U.S Application Serial No. 09/831,100 is now U.S Patent No. 6,725,093.

Appropriate correction is required.

### ***Double Patenting***

7. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

Art Unit: 3766

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

8. Claim 1 is rejected under 35 U.S.C. 101 as claiming the same invention as that of claim 1 of prior U.S. Patent No. 6,725,093. This is a double patenting rejection.
